

City News

....In Brief

(From Sunday's Daily.)

Williams Visitor.

J. H. Hogue of Williams is visiting in the city.

Here From McCabe.

O. G. Stevens of McCabe is here on a business visit.

Back From Tucson.

A. M. Elliott returned yesterday from Tucson.

Camp Wood Visitor.

P. H. Wright of Camp Wood is here on a business visit.

In From the Monica.

J. Morales of the Monica mine is visiting in the city.

Groom Creek Visitor.

E. B. Emery, the Groom Creek mine operator, is visiting in the city.

Seligman Merchant Here.

Michael McBride, the Seligman merchant, is here on a business visit.

Here From Skull Valley.

D. B. Powell and Mitchell Burch of Skull Valley are visiting in the city.

Here From the Monica.

David C. Robinson came in yesterday from the Monica mine, on a short visit.

Left for Home.

Tom Taylor, superintendent of the United Verde Copper company's smelters at Jerome, left yesterday for home, after a pleasant visit here.

Mining Man Visits.

T. J. Morrison, the Congress Junction mining man, is here on mining business.

Back From Salt Lake.

Ben Hartwick, proprietor of the Del Monte, returned yesterday from Salt Lake, Utah.

Accepts New Position.

William A. Hawke will leave today for the Richmond mine, where he has accepted a position.

To Spend Sunday Here.

Elmer Wells, superintendent of the Lelan mine, came in yesterday to spend the Sabbath with relatives here.

Spent Yesterday Here.

N. C. Webster, superintendent of the Josephine mine, in the Hassayampa district, spent yesterday here on business.

In From Lone Pine.

Charles Maxwell came in yesterday from the Lone Pine mine to enjoy a short vacation among his many friends here.

Left for Cloudercroft.

Mrs. William Perrell and Miss Lulu Love left yesterday for Cloudercroft, N. M., where they will spend three months visiting with relatives.

A Flying Visit.

W. L. Anderson, the Ash Fork telegraph operator, paid a flying visit yesterday to the city, returning home on the afternoon northbound train.

Will Spend Sunday Here.

Henry V. Brown, general manager of the Lucky Star mine, in the Mineral Point district, came in yesterday to

spend the Sabbath with his many friends here.

McCabe Visitors.

J. H. Farrell, general manager of the New England-Arizona Copper company, was in the city yesterday. He was accompanied by his daughter, Miss Nora Farrell.

Left for the East.

William McDade and J. J. Sweeney, who recently disposed of their interests in the Money Metals Mining company, left yesterday for their homes in Braddicks, Penn.

Humboldt Mechanics Visit.

Archie Grant and Charles Carlson, well known Humboldt mechanics, came in last evening from the new Smelter City. They will leave for home today on the Poland train.

Visiting With Friends.

Mr. and Mrs. H. C. Malloy and son of Asen are visiting in the city with friends. They will leave in a few days for the coast, where Mrs. Malloy and son will spend the summer months with relatives.

In From Camp.

W. H. Reiterman, secretary and general manager of the Money Metals Mining company, operating in the Black Hills, came in yesterday from his company's camp, on mining business. He states that satisfactory progress is being made in the sinking of the compartment shaft.

Visiting His Family.

M. L. Buckley, superintendent of the Hackberry Mining and Development company, came in yesterday from his company's camp, in the Cherry Creek district, to spend the Sabbath with his family.

Will Leave for Home.

Mr. and Mrs. V. R. Sallinger will leave for their home in Los Angeles today, after a ten days' visit here. Mr. Sallinger is general manager of the lime company operating in the Puntene section, near Hell's Canyon.

Crown King Visitors.

Mrs. J. K. McDonnell and daughter, Roberta, of Crown King, are visiting with Mr. and Mrs. R. E. Morrison. Mrs. McDonnell's parents, Mrs. McDonnell will leave for home today and leave baby Roberta with her grandmother.

Here From the Monarch.

F. A. Thanisch, assayer for the Monarch Mining and Smelting company, arrived here yesterday from that company's camp, in the Wickenburg section. He stated that the machinery in the mill recently destroyed by fire is a total loss.

Pittsburgher Here.

O. Evans Mikeseil, a Pittsburgh, Pa., newspaper man, is visiting this section with a view of becoming financially interested in the mining industry in this county. He stated yesterday that from what he saw of this country he believed it to be one of great mineral possibilities.

(From Tuesday's Daily.)

Turkey Visitor.

C. P. Whitney of Turkey is visiting in the city.

Here From Salome.

H. C. Shotwell of Salome is here on mining business.

On a Vacation.

Frank J. Fay of McCabe is enjoying

a vacation in the city.

Crown King Visitor.

Mrs. George F. Barnes of Crown King is visiting in the city.

Here On Business.

W. L. Dustin, a McCabe mining man, is visiting in the city.

Spent Sunday Here.

Ben Romer and M. Schulz of Jerome spent Sunday in the city.

Spent Sunday Here.

W. C. Bayless, a Flagstaff business man, spent Sunday in the city.

Call For It.

There is an answer to an advertisement at this office for P. Strange.

Humboldt Visitors.

Mr. and Mrs. W. F. Buckingham of Humboldt are visiting in the city.

Ash Fork Visitor.

C. H. Loder, S. F. P. & P. agent and telegraph operator at Ash Fork, arrived here last night on the southbound train on a short business visit. Mr. Loder was formerly in charge of the Postal Telegraph company's office here.

Back From Kirkland.

John H. Robinson returned yesterday from a visit with his parents in Kirkland.

McCabe Visitor.

E. A. Brown of McCabe was noticed circulating among his friends here on Sunday.

Here From McCabe.

Mrs. J. Caspari of McCabe is visiting in the city. She is a guest at the Prescott hotel.

Black Canyon Visitor.

R. C. Houston came in Sunday from the Black Canyon district on a short business visit.

Here From Hillside.

J. Leidig, who has promising mining interests in the Hillside country, is visiting in the city.

Senator Visitor.

Mrs. W. B. McWhorter of Senator was among the out of town visitors here yesterday on business.

Flagstaff Visitor.

J. D. Newman, the Coconino county stockman, arrived here yesterday from Flagstaff, on stock business.

Copper Czar Visitors.

Mr. and Mrs. E. W. McClave of Copper Czar are visiting in the city. They are guests at the Burke hotel.

Humboldt Visitors.

Mrs. T. H. Oxnam and Miss Iris Oxnam of Humboldt are visiting in the city. They are guests at the Burke hotel.

Hassayampa Visitor.

Isaac Anderson came in yesterday from the Independence mine, in the Hassayampa district, on a short business visit.

Left for Home.

Mrs. Neal left yesterday for her home in New York, after a two months' visit here with her sister, Mrs. W. H. Gooch.

Left for the Monica.

David C. Robinson returned yesterday to the Monica mine, in the Kirkland district, after a pleasant two days' visit here.

Left for Kirkland.

Hill C. Moore, carpenter and builder, left Sunday night for Kirkland, where he has a contract to build a house for T. M. Earnhart.

Left for Wenden.

Supervisor Barney Smith left last

night on the southbound train for the Wenden district, where he has mining interests. He will return Saturday.

Left for California.

Mrs. W. W. Vanderholt left yesterday for California, where she will visit for some time with her sister, before returning to her home in New York.

A Mine Inspection Trip.

W. P. Belding left Sunday night on the southbound train for the new copper country along the line of the A. & C. railroad, on a mine inspection trip.

Left for Home.

Rev. G. C. Harris, presiding elder of the Methodist church, South, returned yesterday to his home in Phoenix, after spending the Sabbath in this city.

Stockman Here.

William McIntyre, a prominent stockman and wool grower, arrived here yesterday from the south. He will remain in this section for a few days.

Left for Missouri.

E. S. Campbell left yesterday for his old home in Butler, Mo., in response to a telegram which brought the sad information that his father is very ill there.

Mine Manager Visits.

L. E. Moses, general manager of the Rosalie Copper company, operating in the Copper Creek district, twenty-five miles east of Mayer, is here on mining business.

Was Here Sunday.

A. C. McQueen, live stock agent for the S. F. P. & P. and operated lines, came in from the Cordes section, Sunday, and left yesterday for his home in Mesa.

Left for Congress.

J. D. Crable left last night for the camp of the United Mines company, near Congress, to install a boiler and build foundations for machinery being installed there.

Spent Sunday Here.

J. W. Hobbs, superintendent of the Black Mountain Mining company, left yesterday for his company's camp in the Mineral Point district, after spending the Sabbath with his family here.

McCabe Visitor.

George Conlon, the well known McCabe miner and mine owner, was among a number of Big Bug mine people who spent the Sabbath circulating among their many friends here.

A Flying Visit.

J. T. Whedon, who is developing a promising mining property in the Mineral Point district, paid a flying visit yesterday to the city, returning home on the afternoon daylight express.

Left for Italy.

Louis Barnard and Dominic Calza left yesterday for a visit to their old homes in Turin, Italy, after a residence of twenty-two years in the United States. They will return in a few months.

Prominent Telegraphers Here.

C. H. Gaunt, superintendent of the Santa Fe telegraph service, with headquarters in Topeka, Kan., and H. C. Shase, assistant superintendent, with headquarters in Los Angeles, Cal., arrived here last evening in Mr. Gaunt's private car. They were met at Ash Fork by F. H. Lamb, superintendent of the Western Union Telegraph company, who returned here with them. They will make a tour of the S. F. P. & P. and operated lines during their visit to the Territory.

SAYS THAT NEVADA STOCKS RECEIVE THE MOST ATTENTION.

(From Sunday's Daily.)

F. H. Lamb, division superintendent of the Western Union Telegraph company's lines, with headquarters in Los Angeles, is in the city looking over the local field, which has been materially increased for the Western Union since the Postal company was forced out by the taking over of the S. F. P. & P. telegraph lines, thus leaving the Postal without a line into this city.

Mr. Lamb states several improvements are contemplated for the local office, which will tend to give the Prescott public as excellent telegraph service as can be furnished by the Western Union.

Speaking of Arizona's resources and what Los Angeles business men knew about them, Mr. Lamb said:

"From the amount of business that passes through our Los Angeles office to Nevada it would seem that Los Angeles people are interested solely in Nevada mining stocks. But very little business goes through the office relative to Arizona mining stocks, but I believe this will soon be changed when they awake to the importance of this Territory and the value of its mining interests."

Mr. Lamb will leave in a day or two to look over the Phoenix office.

BRYAN IN RHODE ISLAND.

PROVIDENCE, R. I., April 20.—William J. Bryan, who is making a tour of New England, spoke in Woonsocket this afternoon, and will remain in Providence over Sunday. During his visit Mr. Bryan will be entertained by the Democratic State committee of Rhode Island.

100-TON PLANT FOR THE JESSIE

Large Reduction Works To Be Installed Soon at This Well Known Producing Property--Engineer Coming To Superintend The Construction Of The Mills, Etc.

(From Tuesday's Daily.)

As a sequel to the report of a prominent mining engineer on the properties of the Jessie Mines company, in the Chaparral district, recently submitted to the directorate of the company, a new reduction plant, with a daily capacity of 100 tons, has been purchased, and an engineer, employed by the manufacturers of the plant, is expected to arrive at the company's camp, Tuesday, to commence the preliminary preparations for the installation of the plant.

The purchase and subsequent installation of the plant represents a large outlay, as it consists of three Wild mills, with amalgamation plates, and concentrating and cyaniding plants, large enough to treat the output of the mills, which will be washed with a 60-mesh screen.

Surveys of the site will be made as soon as the engineer arrives and the grading and foundations for the engines and massive machinery will, in all probability, be finished by the time the machinery is delivered on the ground. Treatment tests of the output of the mine have demonstrated that the most economic way of extracting the values from the ores, which are diversified in character, in different properties, is by a combination of amalgamating, concentrating and cyaniding processes.

The company's holdings, located about four miles west of Huron, the nearest station on the Bradshaw Mountain railroad, consist of four patented mines, nine unpatented claims, a mill site and a 160-acre ranch, on the Agua Fria river, covering a water right with an ample supply of water at all seasons of the year for any sized reduction plant that may be built.

In the Little Jessie mine, which is opened to a depth of 657 feet by a vein extensively developed, and the shaft from which there is more than a

mile of drifts and crosscuts on the vein, there is said to be ore bodies estimated to value \$30,000,000, blocked out, in addition to a large tonnage on the dump ready for treatment in the new plant. The Little Jessie has a record of gold production dating back to the uncovering of its first ore shoot, which was exceedingly rich and from which some of the highest grade gold ever found in the district was mined.

At present the energies of the management are confined to enlarging and retimbering this shaft, which will be sunk to the 1,000-foot level before any extensive exploration is attempted. Some two months ago a very important strike was made in a crosscut from the 300-foot level in this shaft, when an ore body was uncovered, never known before to exist, at a distance of 50 feet from the rich paystreak on the foot wall, which is proving well.

John S. Jones, president and general manager of the company, through whose efforts the mine has become the success that it is, expects the Little Jessie to surprise the district when its ore bodies are tapped from the 1,000-foot station by drifts and crosscuts, and he believes that the ore shoot recently discovered in the 50-foot crosscut from the 300 may prove to be even greater than the rich footwall paystreak, which has already yielded \$800,000 in the yellow metal.

In addition to the Little Jessie, the company owns the Dividend mine, located north of, and adjoining, the former, and on a parallel level. Here, as in the Little Jessie, there are large bodies of ore exposed, although the mine is developed to a depth of only a little over 200 feet. As soon as the mill is installed the Dividend shaft will be continued to greater depth, the vein extensively developed, and the output treated in the new plant.

WHAT A SMELTER WOULD DO FOR PRESCOTT

(From Tuesday's Daily.)

Judge J. J. Hawkins, whose confidence in the future of Prescott has never faltered during his many years' residence, and who never misses an opportunity of speaking a good word for his home city and the mineral possibilities of Yavapai county, when abroad, returned here yesterday from Douglas, where he attended the convocation of the Episcopal church, held in the great Smelter City of the south last week.

"What we want here is a smelter to make this the greatest town in the Territory in wealth and population," said the Judge, when seen by a Journal-Miner man. "We want a smelter and we want it right away," he added, "and the city authorities should not pause in granting a site for one on the Duke ranch when satisfied that the parties applying for it mean business."

"Douglas," he added, "boasts of the second largest smelter in the United States. It has two smelters in operation and a third in course of construction, and the town has grown from a mere village, in the short space of six years, to a city of 10,000 people. This is what smelters have done for Douglas, and imagine the greater Prescott we will have after a smelter is in operation on the Duke Ranch a few years."

"We are building a monument here to the gallant 'Bucky' O'Neill, which I favor, and the Douglas people are building a magnificent hotel in honor of Gadsden, the famous southerner, who purchased their part of the Territory from Mexico, and whose memory the people there honor because it was through him that their country, which is in common with this part of the

Territory, one of great mineral resource, was purchased from Mexico. This hotel covers a half-block, is four stories high and will cost, when finished, nearly \$200,000. It will be named the Gadsden, and in its auditorium, which is the largest of any hotel in the Territory, either a beautiful statue to Gadsden or a mosaic of him will be erected, to perpetuate his memory through the generations that will enjoy the fruits of his foresight."

Judge Hawkins returned home through Bisbee, where he was the guest of E. E. Ellinwood, counsel for the Copper Queen company, and formerly district attorney of this county. During his stop there he gave the following interview to a representative of the Bisbee Miner:

"Prescott," Judge Hawkins said, "is now enjoying an influx of good things. Not alone is the town itself crowded with mining men, but activity in the district has redoubled within the past few months."

"Prescott a good town? Yes, sir. That town is ahead of them all. We are getting more men in every day and new business and industries are opening up every little while."

"A number of good mining sales have been made in the last few weeks. The largest I recall at present was that of the 'Old Tiger,' which brought the owners \$80,000. Several smaller sales have been made, though."

NEW COUNCIL INSTITUTED.

(From Tuesday's Daily.)

R. E. Morrison, Peter Jolly, J. J. O'Connor, J. R. McDonald, P. J. Keogh and Anton Armbruster, members of the local council of the Knights of Columbus, returned last night from Flagstaff, where they assisted in instituting a council of the order Sunday. They report having been royally entertained by the Skylight City Knights. There were also delegations in Flagstaff from San Francisco and Los Angeles. A number of other knights from this city will return Wednesday, after taking advantage of the excursion to the Grand Canyon and other points of interest in Coconino county.

ENGLAND SAYS NO ALUM IN FOOD

In England and France the Sale of Alum Baking Powder is prohibited by law because of the injurious effects that follow its use.

The law in the District of Columbia also prohibits Alum in food.

You may live where as yet you have no protection against Alum The only sure protection against Alum in your Baking Powder is to

Say plainly—

ROYAL BAKING POWDER

ROYAL is made from Absolutely pure Cream of Tartar, a pure Grape product. Aids digestion—adds to the healthfulness of food.
